This 2-day event held in Dubbo was a culmination of 6 months of Year 9 students preparing 6 Merino Wethers, which included health husbandry, feeding and general day to day activities. The sheep were judged on their confirmation, wool and carcase over both days. This was the first time WHS had been represented at this event. We did not win any awards, but received positive feedback throughout the judging of each class and we have a lot to work towards next year the 2024 Year 9 students.

Students were involved in workshops which encompassed the wool and meat industry and included working dog demonstrations, wool classing and technology.

The students represented the school in an outstanding manner and should be commended on their efforts.

FROM THE PRINCIPAL'S DESK

On Tuesday we had a large number of staff, students and former students attend the service to say farewell to past student, Trey Johnson Piggott. It was a lovely service but also very sad. Many of us have fond memories of Trey. This tragic incident has had a significant impact on our community. I emailed our families last week with information about supports that are available and I encourage students to seek the support of our wellbeing team Kate March and Daniel Sweed as well as our counsellors, Paul Young and Judy Wall if needed.

On Monday, Year 10 and 11 attended a special assembly where all 17 prefect candidates delivered speeches to let everyone know why they would make a good school leader. Year 10 and 11 plus staff have cast their votes and this will be used to inform who the 12 prefects will be and also who will be interviewed for a captain position. I commend all candidates for their maturity and excellent delivery of meaningful speeches. The audience were very attentive which certainly made this high pressure situation easier for the candidates.

This week is book week and today we have an abundance of literary characters at school. It is so much fun seeing everyone get involved. In the spirit of promoting reading, our library staff, Mrs Burgess and Ms Young have been adding themed book displays. The latest addition being Mad Hatter hats created by Ms Goodwin and her Year 7 Technology class.

Today is also Wear it Purple Day. This day is officially recognised by the NSW Department of Education to show support for LGBTQIA+ young people and foster supportive, safe and inclusive environments. We have a large contingency of students wearing purple today and some have been clever enough to wear a purple book week costume.

Most HSC Major Projects have now been submitted. This year we have Industrial Technology Timber and Multimedia as well as Textiles. Visual Arts projects are due soon and later in the term we will have the Music practical exam. The standard of these works is always outstanding and for the subjects where the project is a physical work, that's an item to always treasure. Thank you to the teachers who work tirelessly with students in and outside school hours to help them achieve their best.

A reminder for families to please let us know if your child is diagnosed with a new condition or there are changes to an existing condition. It is important for us to be informed so we can best care for your child at school. Please also let us know if any carer details, living arrangements, email addresses or phone numbers change so you can keep informed with what's happening at school and we can contact you if we need to.

Please note that our uniform shop is having a sale from the 1st September to the end of term. There is more information in the notices at the end of this newsletter.

Lu Nickell
Relieving Principal

COMING EVENTS

Mon 4 September	Parent Teacher Night
Wednesday 30th August	Inter-school Chess Tournament
Friday 22nd September	Last Day of Term 3

Our school SRC and students raised \$423 on 'Jeans for Genes Day' Friday 18th August, raising much needed funds for genetic research for the Children's Medical Research Institute, which will help make a difference to the lives of the 1 in 20 children who face a birth defect or genetic disease like cancer, cystic fibrosis, and life-threatening metabolic disorders.

Green and Gold Day in support of the Matildas

REMINDER PARENTS AND CARERS

Please do NOT drive into the staff carpark in the mornings before school and in the afternoons after school to pick up or drop off your child. It is extremely busy at this time and we would appreciate it if you could drop your child off in the designated drop-off and pick-up areas. Students should also enter the school via the pathways for safety reasons. Thank you for your co-operation.

AROUND THE SCHOOL

Year 10 Food
Technology
students
making
profiteroles

Past WHS student Riley Saban hosted this remarkable event. Congratulations Riley, we are so proud of you.

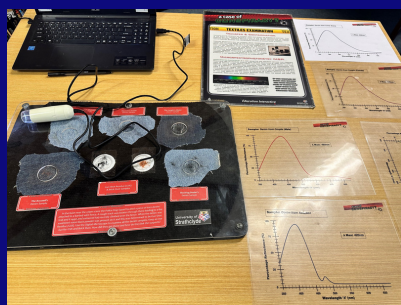

Congratulations to the 100% Attendance Draw winners who received prizes/canteen vouchers at assembly on Monday last week.

Robin Worthing, Riley Nugent, Lucas Messner, Seth Tomlinson, Milli McInerney, Nikita Braine, Alby Murgatroyd, Charlie Wisdom and Macee Harris. Students are awarded randomly with prizes at school assembly if they have achieved 100% attendance during the school term.

FORENSIC SCIENCE WORKSHOP

On Tuesday 15th of August, Year 10 students participated in a forensic science workshop as part of Science Week. It was an excellent activity where students worked in groups to solve a murder mystery. Students used their independent problem-solving skills to analyse the available information. There were fingerprinting, ballistics, tyre prints, blood analysis, fabric matching and DNA profiling skills required in order to solve the crime. Thank you to all staff and students involved to make it a successful experience.

YEAR 9 MATHS EXCURSION

We are thrilled to share with you the exciting adventure our Year 9 students embarked on during their recent mathematics excursion to the vibrant city of Sydney. Packed with intriguing destinations and enriching experiences, this trip was a fantastic opportunity for our young mathematicians to witness how mathematics is applied in various real-world settings.

Newcastle University: A Glimpse into the Future with Soccer-Playing Robots

Our journey began at Newcastle University, where our students were introduced to the captivating world of robotics. In a dazzling display of technology and mathematics, they had the unique privilege of watching soccer-playing robots in action. These cutting-edge machines demonstrated not only the prowess of artificial intelligence but also how mathematical concepts play a crucial role in programming and controlling these robots. It was an eye-opening experience that showcased the intersection of math and modern technology.

Westpac: Unveiling the Secrets of Fraud Detection

Next, on our adventure, we visited Westpac, one of Australia's leading banks. Here, our students delved into the world of finance and fraud detection. They learned how mathematical algorithms and statistical analysis detect and prevent fraudulent transactions. The students gained a deeper understanding of how math is not confined to classroom equations but is a critical tool in protecting financial systems and our society from cyber threats.

Navy Base at Watson Bay: Navigating with Frigates

Our excursion took an adventurous turn as we visited the Navy Base at Watson Bay. Here, our students had the incredible opportunity to learn about the mathematics behind naval operations. They discovered how trigonometry and geometry play a vital role in navigation and manoeuvring frigates. It was a day filled with excitement as students witnessed firsthand how mathematical precision is essential in ensuring the safety and effectiveness of our naval forces.

Macquarie University: Gazing at the Stars

Another destination was Macquarie University, where the students' curiosity reached new heights – literally! Under the clear Sydney skies, they engaged in stargazing and astronomy. They explored how mathematics is instrumental in understanding the vast cosmos. With the guidance of university experts, our students observed celestial bodies through telescopes and learned about the mathematical principles that enable us to unravel the mysteries of the universe.

As our Year 9 students returned from their Sydney excursion, they brought back not only cherished memories but also a newfound appreciation for the real-world applications of mathematics. The trip showcased how mathematics is not limited to textbooks and classrooms but is a dynamic and integral part of our everyday lives.

We hope this adventure has ignited a passion for mathematics in our students and inspired them to explore the infinite possibilities that mathematics offers in shaping the future.

A big thank you to the teachers and staff who organised this incredible journey, as well as to our Year 9 students for their curiosity and enthusiasm. We look forward to more exciting educational adventures in the future!

COMMERCE AND LEGAL STUDIES

COURTHOUSE EXCURSION

On the 11th of August, Woolgoolga High Commerce and Legal Studies students, along with Mr West and Mrs March, embarked on a journey to the Coffs Harbour Courthouse and Police Station. Students have been learning in class about the Australian legal system and the roles played by the courts, so this excursion was a great opportunity to see the law in action.

Arriving at the Courthouse, students were separated into two groups. Each group went into a local courtroom and witnessed a number of trials. Students had the opportunity to see those in custody from the previous day being charged with minor crimes. There were also people who had already pled guilty, coming in to receive their sentence. It was interesting to see how the lawyers and the magistrate work in person.

In the police station, students were taken to a room where they met a Youth Officer and Aboriginal Community Liaison Officer. After the meeting, the lovely youth officer took us down to the forensic lab. There we met an officer who took us through the rooms where everything is processed. We were lucky to be allowed to enter one room, where he turned the lights off to show us how the black light works in order to detect clues at a crime scene. The black light can even spot stains that have been “cleaned”.

Students then went outside to the carpark to meet some officers from highway patrol, and we were lucky enough to sit inside some of their cars to see how everything works. Unfortunately, once the tour of the station was over, so was our trip. Overall the excursion was a fun and educational experience, which I would recommend to students if they get a chance.

- Written by Ethan Malone, Year 10 Commerce

The Run Beyond Project at Woolgoolga

We're happy to share exciting news about a group of our students who are embarking on a journey with the Run Beyond Project. This determined team is gearing up to conquer the Gold Coast 12km run whilst also giving back by volunteering at the upcoming Coffs Harbour Running Festival.

Values That Inspire: Community, Resilience, Goal Setting, and Commitment

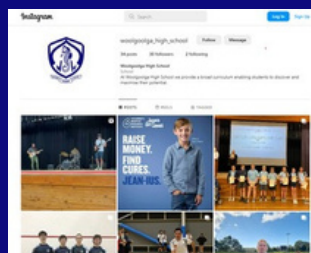

The heart of the Run Beyond Project lies in the values of community, resilience, goal setting, and commitment. As they train together, our students are not only becoming a supportive team but also embracing the importance of unity and shared achievements.

Through challenges in their training, our students are learning to develop resilience – a vital life skill that will serve them well beyond the race. They're realising that with perseverance and determination, they can overcome any obstacle.

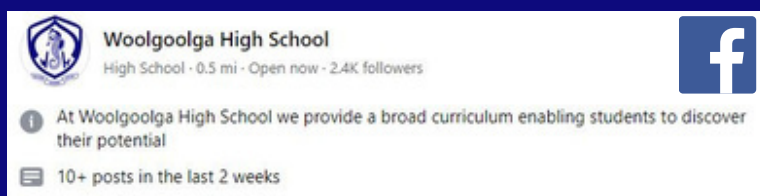

Setting meaningful goals and breaking them into achievable steps is a key lesson. This practice extends far beyond running, helping our students approach their academic and personal aspirations with the same strategic mindset.

The dedication our students are putting into their training demonstrates true commitment. This commitment, both to their goals and to each other, is a quality that will shape their future successes.

Stay tuned for more updates as we continue to cheer for our students.

Follow us on our social media pages

Students can now buy basic stationery supplies at the front office. They can pay in person (cash or card) or parents can pay online using School Bytes.

The prices for items are as follows:

Pens, pencils, erasers
and rulers - 20c each Sharpeners - 50c each
96 page A4 ruled
exercise book - 90c each Maths grid book - \$1.10 Pencil case - \$1.80
Casio Calculator - \$45.00

WEDNESDAY SPORTS

Notes for students to leave during sport time need to be at the office by 10:30am.

Notes received after this time will not be approved for students to leave during sport time.

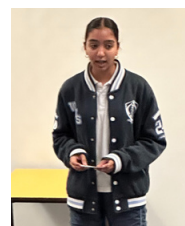

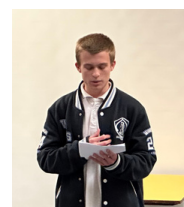

YEAR 11 PREFECT SPEECHES

Congratulations to all 17 of our Year 11 2024 School Prefect nominees on your Prefect speeches at assembly this week.

Students in Years 11 and 10 and school staff listened to the students speeches and have been voting for our incoming Prefects for 2024.

Our student nominees for 2024 School Prefects include:

Fikrte Aulfina Deressa, Sarthak Chaudhry, Jayde Gulliford, Tanika Harrison, Kaleb Hart, Simran Kaur, Isaac Lee, Riley March, Cypress Marshall, Tom Murgatroyd, Jye Pursch, Brody Robinson, Celine Shih, Ebony Singh, Tnisha Singh, Benjamin Warden and Leevon Young.

LIBRARY NEWS

The sixty or so students that are part of the peer reading program have had a great time celebrating Book Week. We have been holding a different book themed competition each morning and the stakes are very high. This is a wonderful group of students and we are proud of what they are achieving at WHS.

BOOK WEEK

A Taste of a Tale

Students in all years have been enjoying our Book Reading Sessions in different book genres this week as part of 2023 Children's Book Week.

Book Reading Sessions were held during break times on Monday and Tuesday with teachers reading books and discussing the book genres of Crime, Fantasy, Horror and Teen Romance to interested students.

7TEC7, Rebecca Young from our Library and Mrs Burgess have been very busy in week 5 and 6 making hats for Book Week 2023. We based the design and mini project around Lewis Carroll's classic fairytale - Alice in Wonderland. Students had to design a 'Mad Hatter' themed top hat using cardboard, felt, feathers, playing cards, velvet and other decorative items. Students really took a personal initiative and explored their creativity in this project as individuals and as a team. The hats are on display in Library, please feel welcome to check them out during Parent Teacher night in Week 8.

Full results from the school Book Week Competitions will be announced in the next newsletter.

Overwintering Art Project by Past Woolgoolga High Students Exhibition

Student artworks from Toormina and Woolgoolga High schools from the 2019 Overwintering Project in conjunction with the Coffs Harbour Art Gallery are in the YAM collection and are being exhibited as part of the opening collection exhibition, Harbour, Headlands, Hinterland at Yarrila Arts and Museum.

Harbour, Headlands, Hinterland

Saturday 16 September – Sunday 24 September, 2023

Places are more than the backdrop to our lives; our feelings for place run deep. Sometimes we forget to really see and experience the places we move through in our everyday life. Harbour, Headlands, Hinterland explores coastal and country life through Yarrila Arts and Museum's diverse collection of contemporary art, which has grown significantly since the original gallery opened 21 years ago. Let our artists show you how a sense of belonging comes from a grounding in place.

The official opening of Yarrila Place will take place on Saturday 16th September between 10am and 2pm, all welcome to attend.

CHS GYMNASTIC CHAMPIONSHIPS

Congratulations to our gymnasts who competed at the CHS Gymnastics Championship at Hunter Sports Centre in week 4. The students represented Woolgoolga High with great pride and sportsmanship and should be commended on their achievements.

UNDER 15'S NETBALL

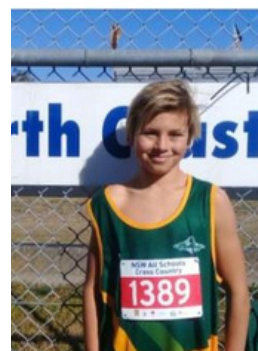

On the 27th of July the Under 15's Girls Netball Team hosted the Mid North Coast Gala Day. The Woopi girls were highly competitive, posting a convincing win over South Grafton in the first round and losing narrowly to Grafton in the second round (Grafton won the day in the end). The Woopi girls passing game, teamwork, brilliant defence and creative attack was a pleasure to watch. All students exhibited great sportsmanship and brilliant athletic ability. Well done girls, it was an absolute pleasure to coach you and spend time together on the day. It is truly wonderful to see how the growth and development of the Woolgoolga Netball Association and representative participation has created a new generation of exceptional netball players in our town. A huge thank you to the Woolgoolga Netball Club for hosting the event, providing wonderful facilities, as well as running the canteen and timer on the day.

Congratulations to Year 12 student Baxter March who has represented Woolgoolga High School and the North Coast region at the NSW All School State Cross Country Championships for the final time earlier in the term.

Baxter started his CHS cross country journey in 2018 as a 13-year-old, running the 3km event and finished as an 18-year-old running the 8km event. He qualified for state in each of his six years at high school and has been a valued member of the Woolgoolga High cross country team.

Thank you Baxter for always competing with distinction and developing into such a wonderful role model for the younger Woolgoolga High students.

SPORTS SELECTIONS

During Weeks 6 and 7, students will select their Sports for Term 4. Students will need to check their email as they will have a link to complete their 3 preferences. Please choose carefully as there will be no changes. Consent forms will be emailed to parents in Week 8.

SPORT

GREAT BOWLS OF FIRE

In a shocking twist of fate, three brave lads from Woolgoolga High School's Year 11, Callum Hodgkinson (Skip), Scott Priest, and Navrin Connor, embarked on a lawn bowls adventure to Glenbrook Bowls Club, Penrith for the NSW schools state finals over two days Wednesday 16th and Thursday 17th August as a part of the top 16 teams in NSW. Accompanied by the carefully selected staff member Dylan Kinninmont and their coach Brenton Merchant (the old fella) from the CEX bowls club.

Armed with their trusty bowls and a formidable spirit, the trio managed to achieve the unthinkable - a clean sweep of losses in every single game they played! It was as if they had a secret pact with the grass to make it more challenging for them, and boy, did the grass deliver!

The competition might have eluded them, but their sportsmanship and determination were nothing short of legendary. Navrin, with his wildly optimistic shot selections, left bystanders wondering if he was aiming for the next postcode. Scott, displaying incredible malleability, managed to turn into the top 8 drive bowlers in the state, inadvertently demonstrating the true meaning of "rolling with the punches." Meanwhile, Callum's impeccable ability to find the only gap amongst the bowls with his draw was simply awe-inspiring, saving the multiple points in every match.

Comments from Brenton Merchant (CEX Coach)

"Firstly, they did very well to get to this level.

Secondly, they were playing against players that were much more experienced. Some are included in the Australian Junior Bowls squad. Although they did not win a game, their performance on the green and off was exemplary.

They were getting beaten convincingly. There was no throwing of equipment, bursts of cursing or bad behavior at all.

Takes a lot of self-control to do this when you are being badly beaten over and over again.

I am proud to say I have coached and assisted them. They were great in every way."

Despite it all, their smiles remained as unbreakable as their losing streak, inspiring awe in the face of adversity. It's safe to say that their presence alone turned the event into an unforgettable spectacle, reminding us all that sometimes the real victory lies in the journey, not the destination. Kudos to Callum, Scott, and Navrin for teaching us that even the most epic failures can leave a lasting impression and a heck of a story to tell!

CAREERS

Molly Combines Nursing Job with TVET course

Congratulations to Year 11 student Molly Cohen who has recently secured part time work at Coffs Harbour Masonic Retirement Village while studying her TVET Certificate III Assistant in Nursing course. In preparation for her upcoming work placement for her course, Molly contacted staff at the aged care facility to obtain some experience working in the aged care industry prior to undertaking her 2-week work placement at Coffs Harbour Base Hospital. Molly successfully secured casual work at the aged care facility and commenced her first nursing shift on August 8. Molly says she is loving her new job at the aged care facility, where she provides personal care and social support to residents of the facility, who love having a new young person around to care for them and to talk to. "You kind of become their family and hang out with the residents," Molly said. "It's a hard job, but I like it."

Molly says she has always wanted to work in the medical field, and her work at the aged care facility combined with her Certificate III Assistant in Nursing will set her up to achieve her career aspiration of becoming a Register Nurse (RN).

Molly's TVET teacher Lucy Downey said she was so proud of how far Molly had come since starting the Certificate III Assistant in Nursing course.

"She was so shy when she first started the course, and now she is independently working and assisting aged care residents and using her own initiative.

"Her confidence has skyrocketed. I am so proud of the fact that she has done this."

Well done Molly and we wish you all the best with your Nursing career!!!

WHITE CARD COURSE

Congratulations to 19 Students who successfully obtained their White Card yesterday, 24th August 2023. "Safe at Work and getting Safely Home".

Start Your Future Metal Fabrication/Engineering course at Grafton TAFE

Year 10 students Tully Darbin, Jaxson Fulton, Izaac Waghorn and Lachie Doyle have been enjoying participating in the Educational Pathways Program (EPP) Start Your Future Metal Fabrication/Engineering course at Grafton TAFE one day a week. The students commenced this free course in Term 2 and enjoyed it so much that they decided to participate in it again in Term 3!

As part of the course, the students have received Cigweld welding gloves and a welding helmet for free and have been welding products themselves which they can take home, including a metal toolbox. The Start Your Future courses get students out of the school setting and into TAFE-style learning. The Metal Fabrication/Engineering course provides students with practical demonstrations from highly qualified teaching staff and the opportunity for students to participate in hands-on activities to gain insight and knowledge in the engineering industry. The course educates students on Workplace safety, How to safely use and maintain tools and equipment, an Introduction into project planning, measuring and cutting metal, and an Introduction to welding. Course outcomes include students making informed career choices to access VET options like SBATs and VET at school or transitioning to study TAFE NSW and students developing individual learning plans identifying courses and study options linked to their preferred careers. Upcoming Start Your Future courses on offer at Grafton TAFE for Term 4 include Automotive, Early Childhood Education and Care, Barbering, and Animal Care. To express your interest in these Term 4 courses please visit the Careers staff in the Library office.

University of Sydney Visit

Student ambassadors from The University of Sydney travelled to our region and visited our school on August 17 and spoke with Year 10 and senior students interested in a university pathway or in attending The University of Sydney after school. The student ambassadors discussed study options at the university, subject selection preparation, student visits to the university, what uni life is about, different university societies that students can join, jobs available on campus, areas of study, combining university degrees, the university calendar of study and much more. Students were encouraged to create their 'SIM' (strengths, interests, motivation) and follow this to work out their future career. Thank you to The University of Sydney staff and student ambassadors for this recent visit for our students. The upcoming University of Sydney Open Day will occur on Saturday 26 August.

Pre-apprenticeship skills course

Timber & Hardware

NTHA Trainees and Apprentices

Kick-start your Apprenticeship

As part of the Educational Pathways Program, NTHA is offering a pre-apprenticeship skills course in the timber and hardware industries.

Our four day highly interactive program includes learning about timber and hardware industries. From the design and manufacturing process all the way through to products being in the trade customers hand!

Unlock your future options

Completing this course and the below units of competency can earn you credits for further learning!

Units:

(BSBOPS202) Engage with customers

(SIRXSL001) Sell to the retail customer

(FWPCOT3323) Assess wood materials visually

(BSBWH5211) Contribute to the health and safety of self and others

Course Details

Start date	Monday 11th September
Duration	9am-3pm Monday to Thursday
Location	Grafton
Eligibility	Years 10, 11 and 12
Cost	FREE Fully subsidised by the NSW Government

Keen to apply?

To sign up for the course, speak to your careers adviser and complete the EOI form provided.

INFRASTRUCTURE TRAINEESHIP BUILD YOUR PATHWAY TO SUCCESS

Join us and create the cities of the future! Get paid to gain on the job experience and training whilst meeting future employers.

The NSW State Government is offering Year 12 students and school leavers an opportunity to apply for a NSW Infrastructure Traineeship. The traineeship has been designed for Year 12 students and school leavers seeking to commence a career in the booming Infrastructure industry, with more than 140 places available across NSW.

This two year traineeship program combines TAFE NSW studies with practical experience, working for NSW Government agencies and private sector industry employers. Trainees will have the opportunity to complete their studies in Business, Project Management Practice, or Procurement and Contracting.

WHAT ARE THE BENEFITS?

- Get on the job experience through full-time paid work, whilst studying 1-2 days per week.
- Nationally recognised Certificate IV qualification from TAFE NSW
- Learn transferable skills through vital workplace experience
- Nothing to pay for your qualification, and no debt!
- February 2024 start – so you can enjoy your summer first!
- Available in metro and regional areas.
- Work with great people in great businesses and build the future of NSW

HOW DO I APPLY?

One easy way to apply – complete the application form and upload your resume!

SCAN QR CODE TO APPLY NOW

The 2024 NSW Government Infrastructure Traineeships applications are now open!

Who can apply:

- 2023 Year 12 Students
- 2022 Year 12 Graduates
- Students who may not have completed Year 12 due to extenuating circumstances should also apply for exemption consideration to the Year 12 completion criteria

Traineeships on offer include Certificate IV qualification in:

- Business
- Project Management
- Procurement & Contracting

All students are encouraged to apply. Traineeships commence February 2024.

Australian Air League
NSW Group

**NSW GROUP
IS NOW ENROLLING**

Since 1934 the Australian Air League has been teaching young boys and girls nationwide all about aviation, while helping them develop important life skills like leadership, discipline, self confidence and teamwork. When you join the league you will make new friends and take part in fun and exciting activities, on the ground and in the air.

Each week you will attend your local squadron where you will learn valuable skills and take part in fun and interesting activities and classes. Some of our classes include Meteorology, Navigation, Photography and Community Service. Squadrons also attend training camps, sport and recreational days, flying experiences and ceremonial drill.

We welcome boys and girls from the age of 8 years old from all different cultures and backgrounds. Parents and families are welcome to support or even join their local squadron as a volunteer. All adult members and volunteers are Working with Children Checked.

The Australian Air League is running both a fun and educational programme that is making fine citizens out of our young Australians.
